Selected French Wine Houses

At Loamanic Wine & Spirits, we specialize in working with distinguished estates from France's celebrated wine regions. Each producer represents generations of expertise, from grand châteaux to small family domaines, all driven by their passion for their craft.

Our selection spans the iconic regions that have defined fine wine for centuries. From the limestone slopes of Champagne to the sun-drenched vineyards of the Rhône Valley, from the noble estates of Bordeaux to the historic domaines of Burgundy, each producer upholds their regional traditions while thoughtfully adapting to modern approaches.

We focus on producers who best represent their appellations, whether they are established names or emerging talents. Our portfolio includes both classic estates preserving centuries of tradition and forward-thinking vigneronns shaping the future of their terroirs.

For inquiries about these producers or their wines, please contact our team.

Château du Rocher

Founded on a Gallo-Roman villa site, Château du Rocher represents five centuries of continuous family wine production in Saint-Émilion. The 16-hectare organic Grand Cru property features exceptionally old vines, averaging 60 years, with some Merlot and Cabernet Sauvignon approaching centenarian status.

The estate achieved organic certification from Ecocert in 2012 and NOP certification in 2021, following a transition that began in 2009. The vineyard, planted to 70% Merlot, 15% Cabernet Sauvignon, and 15% Cabernet Franc, grows on argilo-calcaire soils enriched through natural amendments including estate-harvested mistletoe.

Current management under Comte and Comtesse Bertrand de Sercey maintains traditional vinification methods, with 12-month French oak aging.

Château Gilbert & Gaillard

Located in Puisseguier within Saint-Chinian AOP, Château Gilbert & Gaillard manages 33 hectares of vineyards within their 55-hectare estate situated in a Natura 2000 protected area.

The vineyards, positioned between 150-200 meters elevation on clay-limestone hillsides, benefit from both Mediterranean climate and maritime influences.

Their deep, stony soils provide natural drought resistance, while the surrounding garrigue (thyme, rosemary, juniper, wild fennel) contributes to the wines' aromatic complexity.

The estate produces three ranges: Symphonie du terroir, Prélude du Château, and Refrain des Amis, focusing primarily on red blends of Syrah, Grenache, and Mourvèdre, alongside white wines from Vermentino and Grenache Blanc.

Thank You for Exploring French Wines with Loamanic Wine & Spirits.

Rosanna Pancotto and the Loamanic team have assembled this initial collection of French wines. While our current catalog features select producers, we continue to expand our portfolio and can source specific wines from across France's wine regions based on your requirements.

As a WSET Level 3 certified professional pursuing the Diploma program, Rosanna offers expert guidance in wine selection and hosts virtual tastings focusing on sensory evaluation.

Our import license allows us to bring in wines not yet available in Western Canada, and we welcome inquiries about custom import solutions for both private clients and businesses.

Loamanic Wine & Spirits provides direct import services for the Canadian market. For information about our current portfolio, specific brand requests, or to discuss importing opportunities, please contact us.
